

**No insect's
pass!**

ACTIVE NET the next generation 50-mesh net!!!

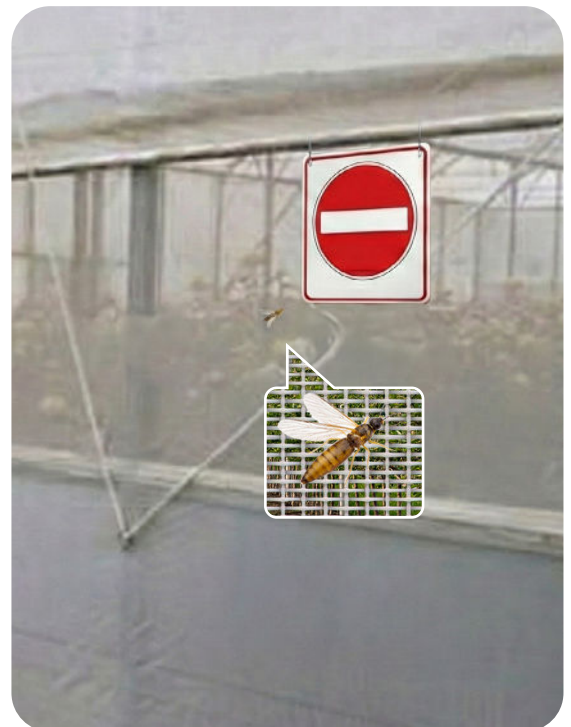

Expanding the protection's boundaries – agricultural net with natural based insects' repellent, Active Net.

Discover the newest and most advanced greenhouses nets. With Active Net we don't just block insects – we repel them!

Politiv's development team took the 50 mesh net to the next level, dual protection solution:

Active Net solution keeps your crops clean, healthy, and thriving, while significantly reducing the need for pesticide spraying.

We implemented a different approach: we developed a slow-release natural based ingredients incorporated in the nets, these ingredients repel insects away from the net, perfect solution.

The Active Net Advantage

Reduced use of pesticides – economic savings for the grower.

Be the first to use Active Net and enjoy it advantages.
