

TECHNICAL PRODUCT INFORMATION

Product: Lamination Film- PE easy opening

Catalog Number:3004

Product Description: Films used for easy opening - polyethylene are multi-layer flexible materials designed to provide controlled and clean peel separation when sealed to PE-based substrates. The films ensure reliable sealing during packaging while enabling easy opening without tearing or damaging the package. Used for food and industrial packaging applications, offering convenience, controlled peel performance, and consistent sealing compatibility with polyethylene films.

Thickness: 30-90 μ

Width: Can change accordingly per customer request
