

TECHNICAL PRODUCT INFORMATION

Product: Lamination Film-Doypack

Catalog Number:5300

Product Description: Doypack films are multi-layer flexible materials designed for stand-up pouch packaging, providing stability, strong sealing, and product protection. The films offer excellent mechanical strength, barrier performance, and compatibility with filling and sealing applications, enabling upright display and convenient use. Used for food, liquids, and consumer products, offering durability, extended shelf life, and enhanced presentation.

Thickness: 50-150μ

Width: Can change accordingly per customer request

Mechanical and physical properties:

Property	Units	Value		Test Method
		Min	Max	
Dart Impact	g	400	1000	ASTM D1709
Coefficient of Friction – static and dynamic outside/inside layer	-	0.25	0.35	ISO 8195 or ASTM -D1894
Seal Temperature	°C	110	125	Internal
