

Specification for Stretch hood film with Guesst

Product Description – Stretch Hood

Product: Stretch Hood Film

Catalog Number:5259

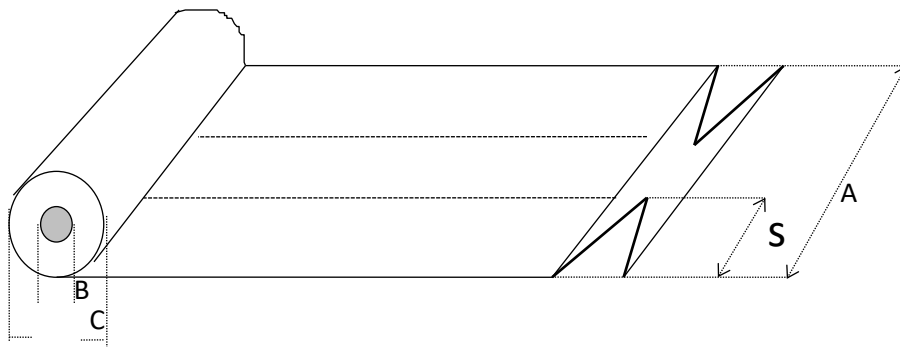

Product Description: The Stretch Hood is a high-performance packaging film designed for pallet wrapping. It provides excellent load stability, protection against dust and moisture, and superior elasticity for secure, tight-fitting coverage.

Ideal for industrial and logistics applications, it ensures reliable transportation and storage while reducing material consumption.

Thickness: 60-200μ

Width: Can change accordingly per customer request

Roll specification:

	Width [A; mm]	Fold width [S; mm]	Thickness [mm]	Internal Core's Diameter [b; mm]	Outer Cylinder Diameter [C; mm]	Open width [D; mm]

* Can change accordingly per customer request.

Stretch hood film specification:

- Mechanical and physical properties:

Property	Units	Value		Test Method
		Min	Max	
Holding Force @50% <TD> Stretch	MPa	5	7	Internal method as described further *
Dart Impact	g	750	1550	ASTM D709
Coefficient of Friction – static and dynamic outside/inside layer	-	0.2	0.3	ISO 8195 or ASTM -D1894
Anti-Static	V	10	12	Internal
