

TECHNICAL PRODUCT INFORMATION

Product: Stretch Hood with High Elasticity

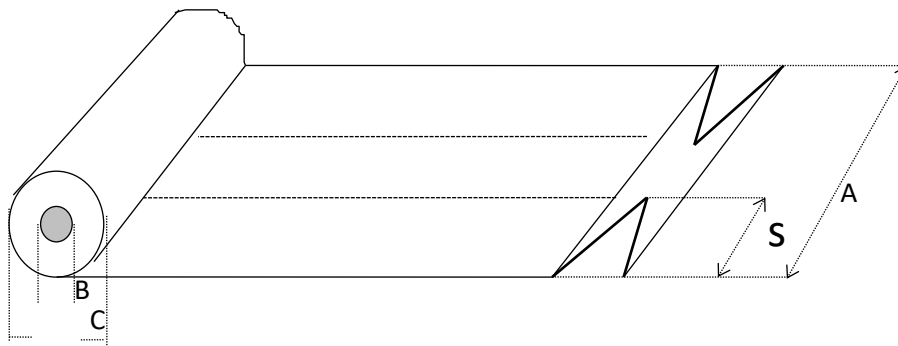

Catalog Number: 5276

Product Description: High elasticity stretch hood films are flexible packaging materials designed to provide excellent stretchability and recovery for secure pallet wrapping. The films combine high mechanical strength with superior elasticity, allowing tight load stability without the need for heat. Used for pallet packaging and transport protection, offering durability, load security, and efficient application in automatic stretch hood systems.

Thickness: 60-200 μ

Width: Can change accordingly per customer request

Roll specification:

	Width [A; mm]	Fold width [S; mm]	Thickness [mm]	Internal Core's Diameter [b; mm]	Outer Cylinder Diameter [C; mm]	Open width [D; mm]

Mechanical and physical properties:

Property	Units	Value		Test Method
		Min	Max	
Holding Force -50% <TD> Stretch	MPa	5	7	Internal method as described further *
Dart Impact	g	750	1550	ASTM D709
Coefficient of Friction – static and dynamic outside/inside layer	-	0.2	0.3	ISO 8195 or ASTM -D1894
Anti-Static	V	10	12	Internal
